VF029 Fidessa Infrastructure Level II (2 Days)

About the Course

This two-day course follows on from the Infrastructure part 1 course. It covers the configuration of the common types of services on a Fidessa server that are used by all of the Fidessa products such as Stream servers and Query servers.

It also covers the use and syntax of the Fidessa Expression Evaluator that is used on all Fidessa products.

Most importantly the course also looks at testing and optimising your customisations to ensure they work as efficiently as possible.
